NUMBER 35

NEW GAME LAW.

Shortens Season for all Game Found in This Section.

The new game law, which received the Governor's signature several days ago, shortens the open season for all kinds of game found in this county and limits to a greater degree than ever, the killing of game just for the sport of killing it.

The new law makes clear what birds are to be classified as game birds. Blackbirds are put in the class, with partridges.

Those birds which shall hereafter be known as game birds which may be killed at some season of the year are: Swans, geese, brant, sea-ducks, rails, coots, mudhens, shore-birds, plovers, snipe, wood-cock, sand-pipers, tattlers, curlews, wild turkeys, grouse, prairie chickens, partridges, quail doves, wild pigeons, reed birds and black-birds.

The following birds are not protected by any law and may be killed when and where the gunner can find them: Blue-jays, English sparrows, kingfisher, cooper-hawk, duck hawk, sharp skinned-hawk, goose hawk, pigeon-hawk, great horned owl and lather crow.

Squirrels—May be killed from October 1 to December 1. But no hunter may kill more than six squirrels in any one day.

Rabbits—May be killed from November 1 to December 1. This shortens the rabbit season fifteen days. As many rabbits as can be killed, the law allows.

Quail—May be killed only from November 1 to December 1. Not more than 10 quail or partridge may be killed in any one day, or more than forty in one week, or more than seventy-five in a season by any one man. The shooting of quail or partridges in a bunch on the ground is a highly criminal offense and is punishable by imprisonment and a fine of not more than \$100. Quail or partridges may be caught during the months of January, February and March, and held until the close of the winter. But they must not be taken from one locality to another, or they must not be sold. They must be released in the same section in which they were caught.

Pheasants—English, Mongolian or Chinese or ruffed grouse may be killed from October 15 to December 1. Not more than five may be killed in any one day, nor twenty in a week, nor forty in a season.

Wild ducks—May be killed from September 1 to January 1 and from April 1 to April 16 of each year.

Wood Cock—October 1 to December 1.

Black birds, rail, reed and shore birds, etc., September 1 to January 1.

It is a criminal offense to hire any one to hunt with you for pay, directly or indirectly.

None of the game birds that can be killed in this county may be offered for sale. The penalty is \$100 fine for each offense. Restaurants may handle some kinds of birds shipped from other States but they must keep a strict account of the place bought at, time shipped and who bought from and from whom they were shipped. Wild turkeys may not be sold or offered for sale whether killed in or out of this State.

It would be a good scheme for hunters to clip this out and save it for reference when the season comes in.

OFF TO GRAND LODGE.

The Representatives of the various lodges of the Independent Order of Odd Fellows in this county, are in Scranton attending the annual session of the Grand Lodge this week. McConnellsburg lodge is represented by County Superintendent Barton; Fort Littleton, by Adolphus Jones; Waterfall, by John A. McClain, Wells Valley, by Arthur A. Cunningham; and Clarence R. Akers, of Akersville, is representing Rays Hill lodge in Bedford county.

NEW FORM OF OATH.

What School Board Presidents Must Swear to On June 1.

On June 1, when the presidents of the different township school boards take office, they will be obliged to subscribe to an oath different from that of other years. They must take oath that the compulsory attendance law has been complied with; that no teacher has been employed at a salary of less than \$35 per month, and that no teacher has been employed for, or had charge of, any of the schools of the district during the year who had not at the time a valid certificate. The old form of oath did not compel them to swear that salaries less than \$35 per month were paid. Another feature of the oath that will meet the approbation of Prohibitionists, especially, is that which requires school board presidents to qualify that the subject of physiology and hygiene, with special reference to the effects of alcoholic drinks, stimulants and narcotics upon the system have been regularly introduced and taught in all the schools of the district.

New Trespass Law.

Under a law which has just been signed by Governor Pennypacker, hunters, fishermen, berry pickers, and any others who like to roam through woods and fields, will be liable to a fine of \$10 for trespass. The new law gives the owner of any property the right to put up trespass signs, and provides punishment for anyone who enters on the property when such signs are displayed.

Under the old law the only recourse left to the owners of land has been a suit to recover damages from those who trespass on lands where signs had been posted. Because it was in most cases impossible to collect such damages, trespass notices have not been very common.

The new law provides that any person who as much as enters on land where trespass notices are prominently displayed, whether damage is done or not, is liable to be fined, before any alderman or justice of the peace. The fine cannot exceed \$10 for any one offense and the costs of the prosecution.

NEEDMORE.

Mrs. Dr. Palmer and little son Paul, and Miss Esta Hart started last Wednesday to spend a few weeks with friends at Oakland, and Chicago, Ill.

Mrs. N. J. Sinnott returned to Philadelphia, after having spent some time with her parents, Daniel Mook and wife.

RESOLVED, That while we deeply deplore our loss; and, that whilst his departure will create avoid in our hearts that time cannot fill, believing that the good that men do will live after them, and that their characters will abide as a fragrant influence, yet we bow in submission to the Divine Will, knowing that he who doeth all things well hath not dealt unwisely in thus calling from us our worthy brother.

RESOLVED, That we extend our heartfelt sympathies to the family—his beloved wife and children—who have lost one they loved to call father, and whom we honor as brother, and commend them to the tender care of Him who has promised to be a husband to the widow and a father to the fatherless.

GENERAL PEDDIN MARRIED.

Wins the Hand and Heart of Bertha, Seventeen-year-old Daughter of George W. Bishop.

On Monday when General John Peddin, the well known blind Salvation Army preacher returned to his home in Knobsville with his bride, who is a daughter of Mr. and Mrs. George W. Bishop, of Thompson township, there was excitement in the old town—not that the General had not arrived at an age when he should be capable of making a proper selection of a life partner, but it was thought that the event should be celebrated by one of the biggest calithumpian demonstrations ever held in town. The word was passed around, an organization effected, and as evening was silently dropping her mantle over the village, the General's home was invaded by an army three hundred strong, bearing trumpets, horns, cow bells, drums, horse fiddles, and of course, the fabled store box was not forgotten, and at a signal from the leader, such a din of discordant sounds broke forth as made the mountain sides reverberate with agony.

To show his appreciation of the reception given, he appeared on the porch with his bride, and to prove that he was not tired of his bargain, kissed his bride affectionately. The General then set up the cigars for the boys, and passed out plenty of candy to the girls, and the first act of the drama was finished.

The bridal party now became the entertainers, and the tambourines and drums were brought out. Auctioneer Wible being willing to turn his hand to anything to help along, took charge of the big base drum, and in true salvation army style a number of songs were sung.

Having had fun enough for one evening, the serenaders returned to their respective homes, bidding the General and his wife a merry good night.

PAINFUL ACCIDENT.

Elmer Mann Loses a Finger at a Steam Sawmill in Wells Valley.

Elmer Mann, of Licking Creek township, met with a painful accident last week one day while working at Mellott's sawmill near Miles Greenland's in the upper end of Wells Valley. In some way Elmer got his hand too near the rapidly revolving saw, and in a twinkling, the index finger of his right hand was terribly lacerated. The services of Dr. Campbell, of New Grenada, were now sought, and that gentleman informed the unfortunate young man that the job of sawing had not been completed, and that he would have to saw the balance of the finger off, and mildly suggested that Elmer would enjoy the performance more, if he would permit the Doctor to give him a little snuff of chloroform. As this was the first opportunity that Elmer had had to witness a surgical operation, he politely declined the Doctor's proposition, and said if it did not make any difference, he preferred to stay around and see the job performed. The Doctor then went ahead, took off the finger, trimmed up the rough edges, placed on the bandages, and the young fellow never flinched—in fact he stood it like a Mann.

Difference in days, exact time, 148, at \$1.50 a day—\$222. \$40,000—\$222—\$39,778. \$39,778 divided by 2—\$19,889. Obed's share, \$19,889 plus \$222—\$20,111, Ruth's share.

Mr. and Mrs. Morris Lloyd, of Chambersburg, accompanied by Mrs. L. We had a very pleasant call from Dennis Charlton, below Fort Littleton, while in town last Friday. Mr. Charlton tells of a little speculation in cherries that he embarked in this spring. Down on his farm, which lies along the Aughwick creek, he cannot raise cherries. His neighbor, James S. Mort, who lives up on the Ridge, always has an abundance of cherries as well as almost every other kind of fruit. Dennis was up at Mr. Mort's one day early in the spring, and seeing the latter's trees, it occurred to him that there was a chance for a little business; so he said, "Jimmy, what will you take for the crop of cherries that will be on that tree this summer," pointing to a very fine tree. It did not take two minutes to close the bargain. "But now," says Mr. Charlton, "since the frost of the nineteenth of April, it is plain to be seen that there will not be cherries enough on that tree to make a breakfast for a sick robin."
